

**Special Press Release**

**Date: 05-01-2020**

**Sub: Rain & Snowfall activity over Uttarakhand from 6<sup>th</sup> to 9<sup>th</sup> January, 2020**

Current meteorological analysis and Numerical Weather Prediction models indicate that a Western Disturbance as an upper air system in mid and upper tropospheric levels and an induced cyclonic circulation in lower levels is likely to affect North West India from 6<sup>th</sup> to 9<sup>th</sup> January, 2020. Under its influence the likely weather activities are given below with peak activity on 8<sup>th</sup> January,2020:

**Weather Forecast for Uttarakhand:**
