

Special Press Release

Date: 08-07-2020

Sub: Wet spell over Uttarakhand from 10th to 13th July, 2020

Current meteorological analysis and Numerical Weather Prediction models indicate that the monsoon trough likely to shift close to foothills of Himalayas from 9th July 2020 onwards and remain there till 13th July 2020. The strong south-westerly winds from the Arabian Sea in low levels also likely to prevail over plains of north-west India during the period and cause moisture accumulation along the foothills of Himalaya. Under its influence monsoon likely to be active and widespread rain/thundershower activities likely over Uttarakhand from 10th July 2020 to 13th July 2020.
