

Press Release

Date: 19-09-2018

✚ Sub: Wet spell over Uttarakhand from 22nd to 25th September, 2018

Current meteorological analysis and model predictions suggest that the South-west Monsoon likely to become active from 22nd September onwards for next 3-4 days over Uttarakhand due to interaction of Monsoon current with the upper air trough in mid and upper tropospheric westerlies .

✚ Rainfall:

Under the influence of above conditions:

- **Light to moderate rain/thunderstorm very likely to occur at many places on 22nd & 25th September, 2018 in Uttarakhand.**
- **Light to moderate rain/thunderstorm very likely to occur at most places on 23rd & 24th September, 2018 in Uttarakhand.**

✚ Warning:

- **WATCH:** Heavy rainfall likely to occur at isolated places in Uttarakhand on 22nd and 25th September, 2018.
- **ALERT:** Heavy to very heavy rainfall likely to occur at isolated places in Uttarakhand on 23rd and 24th September, 2018.

✚ Advisory:

- In view of heavy to very heavy rainfall activities, general public/commuters and pilgrims especially venturing in hills of Uttarakhand on 23rd & 24th must be vigil & take necessary precautionary measures and cooperate closely with the State Govt. authorities.

Note: Kindly visit Met. Centre, Dehradun's Website (http://www.amssdelhi.gov.in/MET_CENTRES/MCDDN) for regular updates of forecasts and warnings.
